Their promises to stand by the British at all hazards were given in March, 1916, through J. P. Morgan & Co., British and French purchasing agent in the United States.

Midvale Steel was the company whose president, A. C. Dinkey, told the Morgan firm that it had put off United States Government orders in favor of the British. The three reported as telling Morgan's they would not fall the British, regardless of American requirements.

Noting developments in Mexico, the British Munitions Ministry had become apprehensive that the United States Army might make a sudden demand on American munitions manufacturers for the bulk of their output. Accordingly, E. C. Grenfell, Morgan's London partner, cabled New York to ascertain how the land lay. New York replied with prompt reassurance.

EXPOSE OF VICE IN DECATUR LEADS

Specific Charges Against Mayor, State's Attorney and Chief of Police Are Outlined.

By a Staff Correspondent of the Post-Dispatch. DECATUR, Ill., Jan. 13.—The

specific charges against Mayor Harry E. Barber, State's Attorney Arthur C. Frazier and Chief of Police Joshua (Jack) Cooper, indicted by a special Macon County grand jury Saturday, were made public today.

As to Mayor Barber, it is charged

that his sworn statement of expen-ditures in his campaign for nomi-nation and election last spring did not include contributions of \$2530, including a \$500 contribution from a slot machine owner; that while serving as supervisor for Decatur Township, prior to his election as Mayor, he embezzled relief orders aggregating \$100 and converted them to his own use; that he delivered two township orders to a friend in payment of merchandise valued at \$60, and that, as head of

Shootings Follow Quarrel Over Supposed "Other Woman."

By the Associated Press.

LOS ANGELES, Jan. 13.—Mrs.
Malita Powell Rovig, 50 years old, shot and wounded her husband, Charles Rovig, 53, today and then killed herself. Rovig, a liquor salesman, said his wife unjustly accused him of being friendly with another woman. He was seriously wounded in the stomach.

Mrs. Rovig's son, Don Powell, 24, told officers his mother sang with the Metropolitan Opera Co. in New York in 1910 under the name of Horatia Powell. He said an attack of laryngitis ended her singing career in 1912. His father, he said, was Capt. Homer Powell, a flyer killed in het World War.

The case was transferred to the Audrain County Circuit Court at Mexico, where she was acquitted last October.

Only one of the 13 lawyers who represented Mrs. Muench at that trial acted as counsel for her and her husband in the Anna Ware habeas corpus suit. He was State Representative Edgar J. Keating of Kansas City, who could not be reached today to learn whether he will represent them in the conspiracy case and, if so, whether he intends to ask for a change of venue.

Basis of Conspiracy Charge.

It was on the evidence produced in the habeas corpus suit, showing that the Muenches had obtained the child of Anna Ware without Juvenile Court authorization, and had falsely represented the baby as born to Mrs. Muench, that the conspiracy charge was issued. It charges that the Muenches, Mrs. Berroyer and Jones, conspired to violate the law against taking cusof the child of Anna Ware and the baby of Estelle Oberg, which died, without authorization of the Juvenile Court.

The conspiracy charge is pending before Judge James W. Griffin in Court of Criminal Correction, and the bonds of the four defendants are returnable before Judge Joseph Dickmann of the same court next Monday. Should a change of venue be granted on the ground of popular prejudice, the case would be ransferred to a Circuit Court of

another county.

Kidnaping Case Tactics.

In the kidnaping case all of the defendants obtained separate trials.

Shortly before Mrs. Muench's trial was to be held last April, after a long series of delays, she filed a motion for a change of venue alleging popular prejudice against her in St. Louis and St. Louis County, Washington, St. Charles, Gasconade, Franklin and Warfen Counties. Her contention was that the residents of these counties had been prejudiced against her by reading news accounts of the case which appeared in the Post-Dispatch and other St.

Louis newspapers.

She had no objection, curiously, to being tried in Jefferson County, which immediately adjoins St. Louis County on the south, and in which the circulation of the Post-Dispatch is larger than in the other counties to which she did object.

NO ADDITIONAL FUNDS UNTIL FEBRUARY

Then 3-Cent Sales Tax Will Bring in \$2,000,000 -State Needs \$10,000,000 for Four Months.

By a Staff Correspondent of the Post-Dispa

SPRINGFIELD, Ill., Jan. 13.-The Illinois Legislature, called in special session by Gov. Henry Horner, is again considering financial measures to meet an emergency in the relief program.

At other special sessions, begin ning with one called by Gov. Emmerson in 1932 at the end of his term, the Legislature has made direct appropriations, passed measures for bond issues and increased the sales tax from two to three cents to provide relief funds.

Last fall, before the Works Progress Administration began to reduce the direct enrollment, the average number of persons receiving direct relief each month was 977,000, including 284,500 family cases, which was equivalent to 12.8 per cent of the State's population of 7,630,654, under the 1930 census. The average monthly cost of relief and administration was about \$10,-Funds supplied by the Federal

Government in August, a typical month, totaled \$8,690,215, while the State furnished \$1,495,593, or 14.5 per cent of the total. Local govrnments provided \$89,467, or less than 1 per cent of the total.

Cause of New Emergency.

The present emergency arose through the transfer of cases from the direct relief disbursed through the Illinois Emergency Relief Commission to the work relief program of the Works Progress Administra With the allotment of \$61,487,285

to Illinois under the WPA, Federal funds to the commission wer topped, leaving it with \$2,700,00 or less than half of the estimated ary, which will be exhausted before the end of this week, the commis Gov. Horner said the State had

expected the WPA would take at least 200,000 families off the relief rolls, but had only taken over 158. 045 cases, leaving to the State the care of about 260,000 persons, including 65,000 unemployables.

With only enough funds for half a month, the commission has anunced it would have to ceas erations when the money on hand exhausted. No additional relie will be availbe until Feb. 1 when the commission will have another \$2,000,000 from the sales tax Even with the \$2,000,000 relief in

me from the tax, however, Gov. Horner has pointed out that less than half of the persons left to the care of the State by the WPA can be cared for, and an additional \$10,000,000 will be required to care for the relief quota left to the State until May 1, which is expected to be as long as WPA funds will last. His request for additional funds made to President Roosevelt in December, has not been acted on. The special session of the Legislature was called by the Governor after a conference with members of the

to the Legislature, but measures before it provide for \$2,000,000 or \$2,500,000 for 15 days' relief, and a \$10,000,000 appropriation for four months' relief. A plan to transfer aties has been presented in the

The State has approximately \$18, 000,000 in a fund which has been set aside for old age relief and for State institutional buildings, but Gov. Horner said he was opposed

anced, and any great appropriation at this time would unbalance it. Even so, this will not deter me from urging the Legisalture to do every-thing possible to solve the relief situation if the Federal Government fails to help further financially and the WPA and the cities and counties fail to do their part. If you want the best cough remedy that money can buy, mix it at home. It costs very little, yet it's the most reliable, quick-acting medicine you ever used. The way it takes hold of distressing coughs due to colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle, and add granulated sugar syrup to make a full pint. To make syrup, use 2 cups of sugar and one cup of water, and stir a few moments until dissolved. No cooking needed. It's no trouble at all, and gives you four times as much cough medicine for your money—a real family supply. Keeps perfectly and tastes fine.

It is surprising how quickly this loosens the phlegm, soothes the irritated membranes, helps clear the air passages, and thus ends a bad cough in a hurry. On the statute books of Wiscon ognized the need for assistance to

MASSACHUSETTS TEACHERS ORGANIZE AGAINST OATH LAW

BOSTON, Jan. 13. - Teachers throughout the State are organizing to fight what they characterize as "pressure-groups seeking to regulate" the schools.

With a bill on file in the Legislature to repeal the teachers' oath law, Samuel E. Morison, professor of history at Harvard, announced last night the formation of the Massachusetts Society for Freedom in Teaching. Twenty-four colleges, universities, preparatory schools and public schools are represented in the organization, directed by council of seven, he said.

"The present tendency to exalt the state above liberty, and, indeed, above truth itself, is a menace to the teaching profession and to the public," a statement issued by the society said. "If we read the signs aright, the teachers' outh act is merely an entering wedge."

In his first comment on a Gov-ernment brief filed Friday with the Board of Tax Appeals, charging that du Pont agreed with Raskob to create fictitious losses in 1929 stock sales, Raskob asserted:

"One could secure no better illustration of the tyranny which a Government bureau can inflict on a citizen than that presented in the United States Treasury Department attack on Mr. Pierre S. du Pont. and in which we are both charged curities to one another."

Frankly admitting the mutual purchase and resale of securities after 60 days, Raskob said that "all these transactions were deliberately entered into for the purpose of definitely establishing losses in the only way that such losses could be established under the law. The law definitely provided this opportunity for a taxpayer to establish definite losses to offset definite gains."

COLUMBUS, O., Jan. 13.—Col. Henry Breckenridge, attorney of New York, asked the Secretary of State today for sufficient petitions to qualify a candidate, whose name he did not give, for the Ohio presidential preference primary in May. Secretary of State George Myers sent him 50 petitions and informa-

tion requested on technical requirements for filing. Breckenridge served as Assistant Secretary of War in the Wilson adninistration and seconded the nomination of former Gov. Harry Byrd of Virginia at the 1932 National

Democratic Convention, that nominated President Roosevelt. He has been chief counsel for Col. Charles A. Lindbergh since the famous

1935 SPEEDER ARRESTS **DOUBLE THOSE OF 1934**

9104 Drivers Apprehended Last Year — Total of All Causes Up 25 Pct.

There were 25 per cent more ar rests in the city for alleged violation of the traffic code last year than in 1934. Chief of Police Mc-Carthy announced yesterday. Arrests for speeding were more than doubled. Total arrests for 1935, including those where tickets were issued to drivers and these was very little politics. When we found evidence of partisanship in relief we got rid of the drivers and those where guilty man.

The Chief's report showed 86 arrests for driving while intoxicated in 1935, but said the figure for 1934 was not available. Only two items on the printed list of traffic of-fenses showed no arrests either year -leaving horse-drawn vehicle unat-tended and passage of advertising vehicles through congested districts. There were 11 arrests for having

glaring headlights last year, but none the year before. Chief McCarthy said there could be no excuse for persons arrested years, and for other drivers, for lack and regulations, in case they were ised that the police would continue would be a large decrease in the number of arrests this year.

The intercity match began with the Shamrocks putting on a storm. After four minutes, a hard shot from Gonsalves was cleared and that proved the start of Kratochvil's troubles. At five minutes, Mc-Nab centered on a corner. Roe tapped the sphere into the net. Afttapped the sphere into the net. Arter 15 minutes a combination of Kane to Patenaude to Gonsalves netted No. 2. Patenaude scored No. 3 on a center from McNab. Then Otuside Right Tarant got loose and beat Ducker. Before the half ended, Roe and Gonsalves had scored to make it 5.1 at half time.

The second half was 10 minute old when Gonsalves counted his third goal. At 18, Tarant again beat Dueker. Then the Shamrock reserves trotted in. Nolan went to fullback; Egan to half, while Nilsen, Pastor and Garcia took their places on the forward line. But even these changes did not help Olympia. Nilsen counted twice, Roe headed in a corner kick from Pastor and ited on a pass from Gonsalves to bring the local total up

Murphy Gets First Goal. In the cup match, the Spaniards started with a rush, but fine defensive play halted them. It was not until after 11 minutes that the Marres scored. Then Murphy took a pass from Fay and sent in a shot well out of Valder reach. A minute later, Ebinger, trying to clear a cross from Simmerman, booted into his own goal. Near the middle of the half, the Burkes forced four

successive corners, but the period ended with the Marres leading 2-0. After 11 minutes in the closing

Bull-fighting and box-fighting are having it out for an premacy in Old Mexico.

As far as the limited experience of this observer goes, the boxer seems to be crowding the toreador off the sidewalk. At very least, he is dividing favor equal-

This became evident from comparison of the rival spectacles held during Christmas week in the same stadium, "El Toreo." At the bull fight on Sunday, persons qualified to judge told this writer that more than 20,000 were present. For the Freddie Miller-Rodolfo Casanova 10-round, nontitle boxing bout, held on the fol lowing Wednesday, the attendance was estimated at between 25,000 and 30,000, by Mexican representatives of American newspaper services.

However, the difference may be accounted for by the fact that there were more seats available for the boxing show, the arena floor being filled with the ringside chairs.

Costs More to View Boxing.

An interesting feature is the prices, which shows that the public will pay more for a prize fight than for a bull fight.

To see the toreador do his stuff, tickets ranged from 12 pesos (\$3.42 U. S. money) to 6 pesos (\$1.71 in U. S.), for the shady side. In the sun, the charges ranged from 7 pesos down pesos, with a 21/2-peso charge for standing room on the

BRANCH RICKEY for years has stood out as the smartest man in baseball and as he goes about the business of establishing a Pacific Coast League farm for the Cardinals at Sacramento, he is proving again that he can get more noise and commotion out of his fire-crackers than any nine or five other director-generals.

Rickey for a long time has longed to see the Redbird organization send its chain store roots into the fertile ground of California and now that the primary objective has been accomplished he is wasting no time in preparing to harvest the first crop of diamond talent. Rickey's statement that he planned to build the Sacramento club out of semipros and amateurs from the California sand lots (pardon, Ponti-cello, they're probably velvet-lots out there) was a fine bit of master strategy.

It was drastic enough to tract the attention of all baseball men-the suggestion that anybody would try to manufac-ture a Class AA club out of green-The president of the Coast League saw the statement immediately and extended his blessings as he registered skepticism. But that statement was not designed for the Coast League executive. It was broadcast to the young men of California, a blatant invitation to ral ly 'round the Cardinal banner. It said in effect, "Don't bother with any other baseball clubs. They'll send you to Timbuctoo o Sylacauga. Come to the Cardinals and you'll jump from the park grass to Pacific Coast League groceries. Here, boys, is the biggest chance baseball has ever offered the native sons of your glorious state."

Down Go Two Birds.

THE statement also emphasized the plight of the Cardinal farm for the benefit of the cash customers of Sacramento. It put the spotlight on the fact that when Mother Hubbard Rickey got her nose in the Sa ramento cupboard, she found not only nary bone, but not even the usual quota of bone heads. The customers can't expect too much from a club that starts without any players whatsoever, as Mil-

ton Stock used to say. But the good fans of Sacramento need not worry. When the amateurs and semi-pros have been gathered in large numbers at the Cardinals' California proving grounds, and the cream of the crop has been selected. BEAUMONT HIGH SCHOOL **GETS HELLMICH TROPHY**

The Hellmich trophy was presented to Beaumont High School this morning by William A. Hellmich, the donor, at a special assembly program. The cup goes to the city high school which soces the most points in the seven sports -football, baseball, tennis, golf,

basketball, track and golf. Wilson Schwenk, president of the Boys' Athletic Association, and one of Beaumont's outstanding athletes, accepted the trophy for the school and in turn presented it to Wilbur N. Fuller, the school principal. Raymon C. Lewis of the Beaumont coaching staff, presided at the meeting.

It was the second time that Beaumont has received the Hellmich cup. Rosevelt and Soldan also have won it twice. The first school to win the trophy three times gains

THREE TEAMS IN TIE FOR LEAD IN "BIG TEN" RACE

CHICAGO, Jan. 13. - Iowa's Hawkeyes, winners of two upset Big Ten basketball victories, will ake to the road tonight to try to prove that they belong up then with Purdue and Indiana in the

championship race.

Iowa, which made an indifferent showing in warmup games, orised Illinois, 27 to 26, and made it two upsets in a row by trimming Ohio State, 25 to 23, Saturday night. Both victories wen cored at Iowa City.

Tonight Iowa tackles Wisconsin at Madison in one of five cham pionship games. A victory over the Badgers would indicate that Rollie Williams has built quite a basketball team out of two versans, Sid Rosenthal and John Barto and a group of sophomores.

Purdue, which swamped Chicago 33 to 21, Saturday for its secon straight conference victory, tertains Michigan tonight, tertains Michigan tonight, and should make it three in a row. The Wolverines, who dropped a decision to Indiana in their opener, cam back to defeat Minnesota, 38 to 28 Saturday.

The Hoosiers kept pace with Iowa and Purdue by conquering Northwestern, but only after a bit ter struggle. The Hoosiers stalled out the last three minutes of a 27-to-24 victory. Indiana meets Chi vago tonight at Bloomington, and will be favored.

Illinois will play its first hom game of the conference season, with Ohio State as the opposition, while Minnesota goes to Northwestern for the other game of the The Illini took over fourth pl Saturday by outlasting Wiscon to win, 29 to 27, at Madison.

BUDGET OUTLINE

Congressional Investigation of "Entire Governmental Structure" Is Proposed in Statement.

FOR ABOLISHING OF WORK RELIEF

Says Roosevelt Delayed Asking for Funds to Rush Bill Through at End of Session.

WASHINGTON, Jan. 13.-Assailing President Roosevelt's interpretions of the fiscal situation as "misleading and deceitful," the American Liberty League called upon Congress today to investigate "the entire governmental structure."

The executive's budget message, the league said, "discloses a program marked by a riot of extravagance on every hand." The investigation was recommended "with a view to attainment of the objectives pledged in the Democratic platform of 1932 and emphasized by Mr. Roosevelt in his campaign speeches." The league said if any corpora

tion should offer a statement under the Securities and Exchange Act "as deceptive and confusing as the President's budget message, it would be prosecuted under the penal section of the statute." Would Abolish Work-Relief. Abandonment of work relief. with temporary substitution of di-rect relief and subsequent loans to

states unable to assume proper re-sponsibilities was suggested in the League statement, Summarizing its analysis of the essage, the League presented 10

points, as follows: "I. Expenditures proposed for the fiscal year 1937, including a supple-mental work-relief item, will exceed those of the record-breaking peace-time total of 1936 by a billion dol-

lars or more.
"2. The deficit is likely to be almost as great as in 1936 despite an estimated increase in revenue of

almost \$1,250,000,000.

"3. The date of a balanced budget remains indefinite, although revenues have reached a volume far the the period of surpluses in the decade up to 1931.

Estimates Omitted "4. Failure to include a new estimate for work-relief leaves an un-certain status of the largest single the item of the budget. "5. The stated purpose to ask of later for the work-relief funds.

probably upwards of \$2,000,000,000, ten obviously means an attempt to rush through an appropriation during the closing days of the session.

"6. Deferred consideration of the period of the consideration of the consideration of the period of the consideration of the period of the consideration work-relief appropriation is designed not only to prevent adequate discussion of the whole question of policy, but also to avert a much needed investigation of the blunders, inefficiency and irregularities of the program to date

of the program to date. "7. 'Regular' expenditures have mounted far above the level of preession costs. "8. A new permanent bureaucracy

created by recent legislation in-creases annual costs by hundreds of ions of dollars. "9. Greater executive authority is sought under the proposed legis-lation permitting shifting of funds,

"10. Drastic reduction in expendi-tures all along the line is not only ssible, but is the most urgent duty facing the Congress." Balancing of Budget.

The League said the President has failed to provide a balanced budget for 1937 and "his policy offers scant hope for 1938." But it added the budget could be balanced and suggested. and suggested: Abandonment of work-relief, with SOVI temporary substitution of direct relief and subsequent loans to states

"Under such program," said the tee, a League," expenditures can be a brought close to a balance with revenues in 1937 and a complete bal-ance can be assured in 1938." The league said that in numerous Respects the President's message states and statistical data were "designed requi

to gloss over or conceal the true Mezh picture of budget status which is labor unprecedented and highly disturb- In re-Commenting on the President's ard of reference to steadily decreasing deficits, the league said.

"With stimulated pride he says that if the

Observer, Back From Southwestern Front, Reports Bombings, for Most Part, Are Ineffective.

ADDIS ABABA, Jan. 13.-Italian planes are bombarding Ethiopian camps and villages on the Southwestern front daily, a European observer reported today after flying back to the capital from a visit to Ras Desta Demtu.

The greatest recent aerial assault was an attack two weeks ago on Negele, 190 miles northwest of Dolo. where 15 planes dropped 500 bombs. Six persons were killed and 40 wounded, it was said.

The Fascist squadrons are flying up the course of the Webbe Shibeli and down the Ganale Doria every day between 7 a. m. and 9 a. m., the spokesman asserted, but their bombings are ineffective because the natives are fully prepared for them.

This was the first authentic news to reach here of aerial activities in the South since the bombardment two weeks ago near Dolo, in which the Swedish Red Cross unit was destroyed.

The observer was on the South western front for two weeks. He said most of Ras Desta's army was concentrated in the vicinity of Malka Ladir, 45 miles up the Ganale Doria from Dolo, headquarters of

Gen. Rodolfo Graziani's main Fas cist forces, but that Ras Desta and his principal chieftains were hidden safely in ravines.

He said the aerial attacks were directed at the camps and villages of Borona and Bale, about 250 miles northwest of Dolo, far behind the Ethiopian front lines and near the

sources of the web of rivers converging on Dolo. The observer said terrific heat, lack of water and widespread masive in that region unlikely, al-

A GIANT ship floats at sea; one of the most powerful ever built. STATE OATHS FOR TEACHERS.

Many words have been written and spoken in the fight against teachers' oaths. The practice of requiring teachers to take oaths as a condition of employment has been denounced as unnecessary and unjust, as lending itself to tyranny and regimentation, as discriminatory, repressive, prying, absurd. None of the denunciations, however, seems half so effective in indicting the teachers' oath on all these counts as the text of the pledge required by one of the 22 states which have adopted the practice, Rhode Island. The full text of the document is as follows:

I, as teacher and citizen, pledge allegiance to the United States of America, to the State of Rhode Island and to the American public school

I solemnly promise to support the Constitu tion and laws of Nation and State, to acquaint myself with the laws of the State relating to public education, and also the regulations and instructions of my official superiors, and faithfully to carry them out.

I further promise to protect the school rights of my pupils, to conserve the democracy of school citizenship, to honor public education as a principle of the conserve the school rights of the conserve the co ciple of free government, to respect the profession of education as public service, and to observe its ethical principles and rules of profes-

I shall endeavor to exemplify in my own life and conduct in and out of school the social vir tues of fairness, kindliness and service as ideals of good citizenship.

I affirm, in recognition of my official obligation, that, though as a citizen I have the right of personal opinion, as a teacher of the public's children I have no right, either in school hours or in the presence of my pupils out of school hours, to express opinions that conflict with honor to country, loyalty to American ideals, and obedience to and respect for the laws of nation and State.

In all this I pledge my sacred honor and subscribe to a solemn oath that I will faithfully perform to the best of my ability all the duties of the office of teacher in the public schools.

Most of the things which Rhode Island teachers must promise and swear are the essentials of decent citizenship-and it has always been taken for granted that teachers as a class are decent citizens. Those few who may not intend to exemplify the many virtues catalogued will not hesitate a moment in swearing that they will do so, if a job can be gained thereby. It would seem possible to depend for regulation of school teachers' behavior on the ordinary safeguards of society: individual conscience and the their barbarous treatment of the Jewish law enforcement agencies plus, in this instance, the right of school boards to hire and fire.

Laws proposing teachers' oaths will come before the legislatures of 20 additional states, including know about it and do nothing to stop it Missouri, at their next sessions. It would be well for private citizens and legislators to study the Rhode Island oath to learn what petty business their states would let themselves in for by adopting such laws.

In the general excitement over the AAA decision let it not be overlooked that Justice Roberts performed a feat that would arouse the unfeigned adis. Our neighbors got mad at us because they thought they would have to help us. We are the only ones on relief the decision from memory, scorning all notes and miration even of the man who remembered Addison the decision from memory, scorning all notes and in our block. THE AUDITORS LOOK AT THE COUNTY HOSPITAL.

An audit of the St. Louis County Hospital, whose superintendent, Dr. Edwin L. Sheahan, is now under fire on charges that under his management the hospital has been made a "political plaything," severely criticises its bookkeeping and accounting methods. In various lines of inquiry, the auditors were balked because of the absence of records, but the conclusions they reached from available records is sufficient to demonstrate the unbusiness-like methods of Dr. Sheahan's administration.

The auditors found that all but 6 per cent of the operating cost of the hospital must be defrayed by the taxpayers, notwithstanding the fact that many of the patients can pay at least part of the cost of hospitalization. Hospital authorities, and this condition is chargeable as well to Dr. Sheahan's predeces sors, have shown laxity in collecting bills. The auditors found the large sum of \$89,865 was due from patients, with average monthly collections merely a trickle. During 1935, which includes Dr. Sheahan's tenure, they dropped to an all-time low of \$1109.

While the auditors could not find data sufficient to figure total cost of hospital operation for each "patient day," they found that the cost of keeping patient in the hospital during 1935, excluding medical and nursing expenses, was \$2.385 daily, as against \$2.225 in 1934.

Among the criticisms in the auditors' report are that "the records are not at all adequate to give assurance that all collections have been recorded in the books"; that cash has not been transmitted promptly to the County Treasurer; that such cash has been improperly used for direct payment of some salaries and expenses; that figures submitted for operating cost do not include depreciation of buildings and equipment or interest on the public debt; that patients' accounts are in a chaotic condition.

This factual report, convicting Dr. Sheahan's administration of unbusiness-like practices, is strong additional proof that Judges Thatcher and Wohlschlaeger of the St. Louis County Court are doing the county a grave disservice in their continued refusal to vote for the removal of Dr. Sheahan.

THE WALTER WILLIAMS FOUNDATION.

Walter Williams, late president of the University of Missouri and founder of its pioneering School of Journalism, will have a fitting physical memorial in the new journalism building at the State University, named Walter Williams Hall in his honor. It is also well that the spiritual side of the man shall have a memorial of the spirit in the Walter Williams Foundation as proposed by the Williams Memorial Committee, consisting of alumni of the school and other interested persons. Such a foundation. secured by endowment, could be made the special means for continuing the elevating work of the late beloved dean in the journalism of this country and the world at large. Walter Williams gave particular attention to the wise administration of scholarships and exchange professorships and close contacts with the professional field. Since that is the type of work which the proposed foundation would devote itself to, formal approval by the Board of Curators should not be long in coming.

IS THE BONUS A RELIEF MEASURE? One of the absurdities of the apparently impend

ing bonus payment is that perhaps the major por tion of the money will go to men who are not in need Following the 1931 law authorizing 50 per cent loans on bonus certificates, a survey was made by the Veterans' Administration to discover how the money was spent. It was estimated that the \$804. 000,000 that had then been lent to about 2,000,000 veterans was spent as follows: (1) \$281,552,000, or 35 per cent of the total, lent to approximately 700. Even if the same general percentage of veterans who actually need the money does not hold good at this time, it is certain that the bonus can be considered only incidentally as a relief measure-and

WASHINGTON. NE of the most interesting things that has gradually taken place in Washington during the past year or so is a shift in the Roosevelt administration's attitude toward a "cheaper" dollar. The word has taken on a different meaning.

In the early days of the New Deal, the emphasis was all on ways and means of obtaining a dollar that would be cheaper in terms of goods and services-a dollar that wouldn't buy so much. This was the grea price-boosting campaign. This was the periwhen it was thought that the only solution to the depression debt problem was payment of debts in less valuable dollars. Now one doesn't hear so much about

"cheaper" dollars in the purchasing-power sense. The emphasis today is being put on getting a dollar that can be borrowed on easier terms-a dollar, in other words, that is cheaper to rent. This is a matter of considerable impor-

tance, quite aside from the fact that it repwhat most economists believe is a more orthodox approach to the debt prob-In a great many respects, a dollar that is

cheap to buy is exactly the opposite of a dollar that is cheap to rent. At least a dollar which is constantly becoming cheaper to buy is entirely different from one which is constantly becoming cheaper to rent. One is an inflationary dollar; the other is not.

If Mr. Jones lends \$1000 to Mr. Smith, he has to take a number of things into consideration when he fixes or offers to fix the rate of interest which he will accent

He has to consider, in the first place, the number of other people who have money to lend to Mr. Smith and the number of people who, like Mr. Smith, are asking loans. This might be called the supply-anddemand or "money market" factor.

He has to consider, in the second place. the risk he takes-the likelihood that Mr. Smith will be unwilling or unable to return the \$1000 when the obligation falls due. This factor, of course, is one which relates specifically to Mr. Smith. It is his credit

standing.

But Mr. Jones has something else to think about, too. He has to consider, in the third place, the possibility that when he gets his \$1000 back, it won't represent as much real value or purchasing power as it did when he lent it to Mr. Smith.

Now it is this third point which makes the difference between a cheaper dollar in the buying-power sense and a cheaper dollar in the interest-rate sense especially clear. If dollars are becoming rapidly and obvi-

ously cheaper in terms of goods and services, there is every reason in the world why they should become rapidly dearer so far as would-be borrowers are concerned. As a matter of fact, the records of past currency and credit inflations prove this is just what happens. When a currency unit depreciates unduly, interest rates go up. They go up because those who have money to lend try to protect themselves against purchasingpower losses.

Prices have gone up in the United States since March, 1933. Prices of some things have gone up a good deal. But if the "price"

farmer is going to do.

Under the AAA, agricultural prices were artificially maintained by taxation and a scar-

city policy. The corn-hog and land retirement schemes practically amounted to a dole. These payments were of great aid to the farmers and to the business men with whom they traded, but farmers are traditionally individualistic and probably would not have been long content to remain under the control of the Washington bureaucrats.

The Government program, on the other hand, has caused much harm which it will be difficult to repair. It has blocked exports and raised prices, to the dismay of the onsumer. While it was supposed to aid the farmer by making it easier for him to sell his products at a fair price, it actually proved to be a boon to foreign agriculture as the restriction program plus the drouth resulted in an increase in our imports. Dur-ing 1935, well over a billion dollars of foreign debit balances was entered on United States ledgers.

Such was the result of direct governmental aid. It should make it clear that New Deal economists and politicians cannot solve the farm problem by means of subsidies. The Government can help indirectly

BOND TREND HIGHER IN ACTIVE TRADE

By the Associated Press.

NEW YORK, Jan. 13.—The major trenct continued upward in the bond market today, with trading active.

Rails liens continued to enjoy the broadest buying interest as reflected by numerous final gains ranging from 1 to 3½ points.

U. S. Governments worked into irregularity after early firmness, finishing 4-32ds of a point higher to 6-32ds lower.

Baltimore & Ohio 6s closed at 91, up 1½: Erie 4s at 81, up 1½; Missouri-Kansas-Texas 5s at 6s, up 3½; International Paper 5s at 98½, up 1½.

Higher prices ruled over a large part of the foreign list.

Aggregate sales today were \$20,455,000. By the Associated Press.

UNITS' QUOTATIONS

Dec. 10.00c.

Trading was moderately active with cotton interests inclined to await clarification of the tentative proposal for a new farm program based on soil conservation.

Transactions were somewhat mixed. Liverpool was credited with buying while the Far East and the continent were sellers. Houses with Southern connections were sellers of summer positions, and prices were fairly sleady at losses of about 3 to 12 points at the end of the first hour.

The New York Cotton Exchange service estimated domestic consumption during December at 509,000 bales compared with 508,000 in December and 417,000 in December, 1934. NEW YORK, Jan. 13.—In the following table will be found the quoted range or prices within which dealers in particular issues are reported willing to trade in the units of respective issues:

New York Jan. 13.—Raw sugar was unchanged early today at 3.15 for spots. The only sale reported was an additional lot of 36,000 bags of Cubas from store on Saturday to a local refiner at 3.15.

Futures opened 1 point net higher to 1 lower and then eased off under increased liquidation and scattered selling which seemed to be promoted by the announcement from Cuba that the 13 per cent, or approximately 306,970 long tons of the 1934-35 crop, held in suspense, had been released.

That he was aware of this could be seen in the decorusness of his uniform and in his way of wearing it; also in the correctness of his face, clean-shaved except for his moustache—a dash of white on a background of healthy pink. His eyes were blue, steady, and kindly, yet there was no hint there of the sanguine spirit which lay behind them. His mouth and chin were not quite strong, yet by no means were they weak. There were two rows of ribbons on his left breast, and on his right four little loops to which the star of a Grand Officer of the Legion of Honour could be attached for formal or ceremonial occasions. He was the Command-er of the Fifteenth Army.

The other man, General of Divis-ion Assolant, did not at the first moment look as though he de-served the nickname by which he was known among the staffs—General Insolent. His attitude was too respectful, and it surprised the Army Commander, who had expected something different in this formidable subordinate, well known to him by report, unseen till today. Kay Brannan, late of Wellesley, elopes with Bob Dakin, medical doctor. He is drunk, but sober again, is horrified because of Priscilla, his finance. Priscilla openly insults Kay so Bob reluctantly consents to Kay's plea that they wait until Spring for a difference. As the months pass Bob and Kay achieve a sort of strained companionship. Priscilla visits Kay one day and Bob drives her home. Hours later he returns from a successful operation, highly jubilant. The hospital had Jocated him at Priscilla's. But in the hours of waiting Kay has suffered. She knows now that she loves Bob and that he loves Priscilla. She leaves bidding no one goodbye but Bob's father. In Carvel, she settles down to a listless existence, with Elmer Radford hovering around.

"There was no indication," Brown said to Morgan, "that the Federal Reserve felt it had any duty toward neutrality, but only to facilitate the export trade with the allies."

"The transaction had the approval of the State Department so it was not considered a violation of neutrality," Morgan retorted. He added both the Federal Reserve and the Bank of England were essentially private corporations. sentially private corporations.

"You can discuss for years" whether the Federal Reserve is a private or Government institution," he said. Says Britain Tied Up Trade.

Senator Clark, (Dem.), Missouri this afternoon began a survey of documents he said proved this country's neutrality collapsed under pressure from the needs of commerce. He said British regulations adopted over this Government's protests "had the natural result of drying up trade of the United States with Germany and Austria and to control trade with the Scandinavian countries so as to tie up our trade irretrievably with the Allied cause."

The whole course of British pol-

The whole course of British policy, Clark contended, "had the effect of subjugating the foreign trade of the United States to British control."

A cablegram, dated Nov. 12, 1914, showed Secretary of State William Jennings Bryan protested that "it would seem not to the commercial or other interests of Great Britain to pursue a policy which would cripple American manufacturers and depress British interests in the colonies."

"It is apparent, however," Clark said, "the British never took American protests seriously and the American Government never pressed them."

Protest by Bernstorff.
Evidence was introduced that Count von Bernstorff, Germany's Vartime Ambassador to the United States, protested to Secretary Bryan against the country's delay in obtaining release of a food ship bound for Germany and seized by the British.
